

England Round 4 Awards March 2017		
Applicant Name	Project Description	Award (£)
Cleveland Ironstone Mining Museum	Based in Skinningrove, Cleveland, this 2 year project, will improve the sustainability of the museum by extending the existing building to provide improved facilities including a walk-round interactive museum, artefact storage, exhibition space, classroom/performance space, research/meeting room, conservation workshops, offices and toilets allowing all year round opening and capacity to stage more events to generate revenue.	800,000
Hartlepool Borough Council	Hartlepool Borough Council (HBC) will transform the seaside resort of Seaton Carew by improving the public realm enhancing the visitor experience and increasing visitor footfall and spend in the area. An outdoor leisure park, water play areas, beach huts and picnic areas will be created and the Grade II Listed Clock Tower & Bus Station will be refurbished. A large piece of art dedicated to Ridley Scott's first film "Boy and the Bicycle", shot along the seafront, will act as a focal point and connect the seafront to the town.	600,000
Blyth Harbour Commission	A 1 year capital project to build and fit out a facility located in the Port of Blyth (Northumberland) to train people in the construction of turbines and the loading/securing of turbines/subsea equipment on both land and onto a waterborne supply vessel. The training facility will include construction of the base, fabrication of a replica tower and blades, provision of a crane and lifting equipment and work to an existing pontoon for loading and securing of the component parts.	800,000

Berwick Harbour Commission	Based in Berwick-upon-Tweed, Northumberland, this 2 year project aims to improve and repair Tweed Dock, jetty and groyne (a timber barrier helping to reduce erosion and drifting) to secure the long term future of the Port of Berwick. It will provide a modern structure for increasing cargo operations and handling cruise ship operations as well as significantly reducing silting of the Dock reducing the frequency and cost of dredging. It will provide a platform for future national and international business growth and improve inward investment.	2,000,000
Barrow & Furness CCT	Delivering the first phase of the CCT's 10 year vision for the area and working with local partners to raise the profile of the internationally important conservation sites on Walney Island in Barrow in Furness, Cumbria, the project will deliver a programme of cultural and ecological activities. It will improve visitor facilities on the island by carrying out public realm improvements and converting a derelict building into a community run visitor hub.	444,159
Visit Southport CCT	Sefton MBC will work in partnership with the Southport CCT to carry out a series of improvements to the grade two listed pier in Southport. This will include painting the structure, installing improved lighting, fitting a new staircase and helter skelter, and constructing new food and retail kiosks. Sefton MBC will work with local stakeholders to improve the year round visitor offer on the pier. This will include creation of a Visitor Welcome Team and promotion of the pier as a vantage point for bird watching.	2,000,000
Silloth on Solway CCT	Silloth on Solway CCT (Cumbria) will work in partnership with Allerdale Council and the Solway Coast AONB to construct 12km of coastal path on the Solway coast between Allonby and Silloth. The path will be used for both walking and cycling, and broaden and improve access to the AONB Coast and its rare habitats for varied species of plants and wildlife Attracting new visitors to the area will encourage longer stays with tangible benefits for local businesses in terms of increased business sales and creation/ safeguarding of jobs.	1,000,000

Art B&B CIC	Art B &B CIC will transform a disused B and B on the Blackpool seafront into a creative hub and café with artist designed visitor accommodation providing training space for hospitality, customer service, events and hotel management.	98,877
Blackpool Borough Council	Blackpool Borough Council will re-establish Blackpool as an attractive venue in the national conferencing market by developing a modern conference centre within the town's iconic Winter Gardens providing new plenary conference accommodation, catering and exhibition space for up to 1,200 delegates. The new facilities will link in with the existing events space within the Winter Gardens including the Opera House, the Empress Ball Room and the Floral Hall. Facilities and enable Blackpool to host large not for profit sector conferences such as those of political parties and academic societies.	2,900,000
Whitehaven Harbour Commissioners	Whitehaven Harbour Commissioners (WHC) (Cumbria) will redevelop the historic buildings and spaces on Old New Quay, Whitehaven Harbour, which will enable full public access for the first time in over 75 years thereby benefitting local businesses from increased footfall.	272,023
North East Lincolnshire Council	CoastNel seeks to enhance Cleethorpes' role as a quality place to work, stay and play on the East Coast with a portfolio of projects to deliver new facilities, upgrade & enhance public space, offer events and activities in 5 key locations within Cleethorpes to extend the traditional tourism season and diversify its appeal to a wider audience. Business Growth Support will also take place.	3,795,539
East Riding of Yorkshire Council	East Riding of Yorkshire Council (ERYC) will reanimate the sea front in Hornsea by delivering a portfolio of projects along the South Promenade including a series of public realm improvements, the expansion the leisure boat compound, and the establishment a year round café, retail space and visitor hub, creating a sense of destination for visitors to the South Promenade and helping to improve connections between the seafront and the town centre.	3,773,485

North York Moors Rural CCT	A 2 year project to boost the tourism economy of the North York Moors Coast and extend the season by working with 140 businesses in the North York Moors Coastal Tourism Network to: implement small infrastructure improvements along trails to encourage use of sustainable transport; strengthening links between trails and settlements with signage and models; repackaging walking, cycling and rail links to attract a broader range of visitors; developing off-season themed breaks.	275,140
Yorkshire Wildlife Trust	Yorkshire Wildlife Trust through their project "Growing Naturally Too - Creating jobs through Nature Tourism" seeks to develop and deliver (1) a new visitor centre and enhanced car park will be provided at Spurn Point, (2) create a natural habitat adjacent to Kilnsea Wetlands and improve family access, (3) public access improvements through provision of a footpath, a new bird hide and parking arrangements at Hornsea and (4) improved access/offering/catering facilities at Flamborough Head Living Seas Centre.	1,102,688
Kingston-Upon-Hull City Council	This 2 year project aims to refurbish warehouses to establish a creative arts hub in Hull's Fruit Market. The hub will include an art gallery, artists' studios, learning/workshop space, performance space and café. The project will include an education programme in conjunction with Hull College and Hull University and will link in with the City of Culture 2017 legacy.	700,110
Lowestoft CCT	This 1.5-year project will regenerate Lowestoft Ness, Britain's most easterly point, creating a landmark visitor destination that celebrates its cultural heritage and location through effective landscaping, public realm design and installation of public art in order to transform a semi-derelict green space and seafront promenade into a quality, vibrant and interactive events and cultural space focusing on the area's local heritage and maritime history of the area.	997,901
Wells Maltings Trust	Wells Maltings Trust (Norfolk) through their project 'Maltings Theatre, Heritage visitor attraction, learning and training programme	311,124

	<p>' aims to transform dilapidated Maltings building into a self-sustaining visitor attraction with flexible community space, new heritage and learning centre, theatre and TIC, training & learning programme.</p>	
Norfolk County Council	<p>Norfolk County Council's 'Coastal Treasures' project will promote the unique cultural heritage along the West Norfolk coastal corridor, creating new opportunities to see and experience the coastal area from Hunstanton Sea Front to Kings Lynn in West Norfolk. Walking and cycling trails will be better connected through improved signage. A website with visual tours to generate interest and a new 'app' and other interactive technologies will be developed. Local businesses will be supported to increase awareness of the trails and how best to use social media to enhance their own business.</p>	302,739
Ipswich Vision Board	<p>An element of a 2-year portfolio project to revitalize, re-generate and enhance the public realm of Ipswich Town Centre and the Waterfront Gateway, and to deliver a series of heritage trails, as key parts of the Ipswich Vision Coastal Communities Strategy.</p>	750,000
Hastings White Rock CCT	<p>Hastings Borough Council (HBC) will deliver a 2 year portfolio project to support the continued regeneration and economic development of the White Rock area of Hastings working with prominent community organisations to deliver the project. The Council will launch a marketing campaign to support a new pedestrian route and encourage the flow of visitors towards the promenade via the free Wi-Fi offer to the White Rock area, with its new business incubator/ commercial space and improved public realm and tourist offer.</p>	812,770
Queenborough Harbour Trust CIC	<p>This 16-month capital project at Queenborough (Isle of Sheppey) aims to increase the capacity of the harbour by installing a 200m pontoon and 30 additional swinging moorings. This will increase permanent harbour moorings from 120 to 180, with visitor days rising from 2,500 to 9,720. A free trot boat service and free Wi-Fi will be provided to visitors and mooring holders. Activities and events will</p>	500,000

	be planned to further support the investment. A project manager will be funded through the Trust's own resources to oversee the delivery of the work.	
Barnstable CCT	Barnstaple Coastal Community Team (BCCT) aims to improve the cultural tourism offer in Barnstaple by expanding the Museum of Barnstaple and North Devon by 35%, making the sub-regional museum more sustainable through increased visitor footfall and spend in the museum shop and tea-room, reversing the current rate of decline. The museum will deliver an activity programme to engage the public with the museum and its collections.	499,999
Bridport & West Bay CCT	A 1 year project that aims to create the West Bay Discovery Centre, Dorset, an innovative visitor and local attraction within a Grade II listed former Methodist Church. The building will be renovated to provide a hub of information on West Bay's heritage. Interpretive displays, visitor information. Activities will be established allowing visitors to explore the heritage of the building and local area. This project will be delivered by the Bridport Area Development Trust (BADT) set up with the aim of delivering community projects in the Bridport area.	240,452
Dorset Coast CCT	Dorset Coastal Connections is a portfolio project that aims to improve and enhance coastal access, public realm infrastructure, increase visitation, connect coastal communities and promote health and well-being. It brings together 18 projects that span the whole of the Dorset Coast (Lyme Regis to Christchurch) involving 4 promenade improvements, reduction of clutter, provision of durable signage and interpretation, creation of 5 new 'welcome information hubs', improved and/or new access to 2 cycle ways, upgrade of paths, and provision of new wi-fi infrastructure in 5 areas.	5,605,927
Minehead CCT	West Somerset Council on behalf of Minehead CCT will redevelop the seafront at Minehead including the restoration of the 6 Edwardian sea side shelters, converting and piloting one as a trading post, with the ambition of converting more in the future.	130,696

	The restored shelters will facilitate new seafront tourism attractions and will also establish a commercially sustainable summer Festival and up to 10 new Harbour markets per year.	
St Ives Coastal Community Team	The project will acquire an unused building on the bay with easy transport connections, and transform it into an enterprise hub, offering commercial workspace, training, activities, facility hire, and partnership initiatives. The project supports the development of small, local businesses through the opportunity to take part in tailored business support programmes tackling the distinct economic issues that have arisen locally.	3,250,000
Dorset Trust for Nature Conservation Limited	Dorset Trust for Nature Conservation Ltd, known as Dorset Wildlife Trust (DWT), will establish the Portland Quarries Nature Park (PQNP) as a high quality visitor attraction on the isle of Portland, improving access in and around the park, creating onsite interpretation (including a new entry point sculpture), and providing support to the tourism industry through training programmes. A full-time project officer will deliver public awareness, training, volunteering and an events programme and oversee the capital works.	154,409
Greenways and Cycleroutes Limited	Based on the South West coast, Greenways and Cycleroutes Limited will create a traffic free cycle and walking path between Brean Down and Weston-Super-Mare. The Brean Down Way will be an all-weather, traffic-free, 6 mile route for walkers and cyclists linking the National Trust owned SSSI headland of Brean Down on the Severn Estuary, and major nearby camp and caravan sites, with the tourist town of Weston-super-Mare.	84,205
East and West Looe Harbour and Bridge Charity	Looe Harbour Commissioners (LHC) will take down and re-build a disused grade two listed building (sardine factory). The harbour-side development will include a training restaurant, café, outward bound centre with a climbing wall, museum and a fishermen's store supporting the fishing industry, the community and improve tourism. The new businesses and facilities will diversify the town's tourism offer,	1,106,015

	increasing visitor numbers and extending the short tourist season.	
North Devon District Council	North Devon District Council (NDDC) want to develop a modern centre for combined water sports on the harbour at Ilfracombe, as a new year-round tourism attraction. It will provide a focal point for water sports in the region for residents and visitors, and a flexible meeting/ training space and a community café, as well as a new slipway/sea wall providing safe access to the water. It will also enable residents and visitors to try out new watersports, hire equipment, receive tuition from qualified instructors, and train for water sports qualifications.	1,559,450
Plymouth City Council	The project aims to create new and refurbish existing culture and heritage venues and improve public realm in order to promote Plymouth as an internationally significant visitor attraction ahead of the Mayflower 400 celebrations in 2020. Attracting 250,000 annual visitors, it will become a year-round, all weather attraction with its collections, archives and galleries. It will host nationally touring exhibitions, catalysing the market for repeat weekend city-break, culture tourists at all times of the year and further support the creative sector.	2,000,000
Swanage Pier Trust	A two year project to secure the future of Swanage Pier and build its potential as an economic, tourism and heritage asset. Major repair works to the pier structure will be carried out, replacing 41 of the Pier's timber piles. Additionally, Marine Villas, a Grade II listed two storey building on the site will be refurbished creating a visitor centre with education, exhibition and interpretation spaces as well as catering and retail spaces. External landscaping will open up the concourse in front of Marine Villas and extend the promenade, improving the public realm.	500,000
The Peninsula Trust Limited	The Peninsula Trust, a Community Benefit Society based in Rame, will create six work units on the derelict rear yard of their property. Renovations will also be carried out in their existing property, the Rame Centre, to create an area suitable for	463,360

	<p>training, events and exhibitions. A full support service to the local business community will be provided including marketing, training and access to business support through signposting and information will be offered. A public path will also be improved to increase accessibility.</p>
